

WHAT DO OUR WEDDING DJs PROVIDE

By SGM Events

WHO WE REPRESENT

We represent DJs who are versatile with their music selection.

Our DJs are professional and experienced, with a musical knowledge that spans many decades and multiple genres, as well as all the latest hits.

They can create an enjoyable atmosphere for your ceremony by providing a musical ambience from the time your guests arrive at the recessional.

We cater to your needs by providing music and emcee services throughout your reception including cocktail hour, grand entrance, special dances, along with announcements and toasts.

Our DJs can read the crowd, playing the right song at the right time, and typically take the generational approach with music, providing entertainment for guests of all ages to enjoy.

By having you provide us with a list of songs and genres that you would like played, as well as not played, the DJ can ensure a memorable soundtrack.

You can feel confident knowing that all sound and DJ equipment will be provided by SGM Events and our DJs.

We offer complimentary consultations with the DJs as well as constant communication with you.

EQUIPMENT FAQ

If your ceremony, cocktail hour, and reception will be taking place at multiple locations within your venue, we can provide DJ setups for each location. If they will be taking place at more than one venue, we can accommodate that as well.

Ceremony

Ceremony setup with a multi-channel mixer and self-powered speaker

Lapel or handheld microphone for the officiant
iPod with a custom playlist

*Can double up with our acoustic acts and create a seamless experience with our DJs equipment

Cocktail Hour

Can provide a separate setup if needed, or combo with reception setup. If reception and cocktail hour are close by, but not in the same room, we can string speakers along to the outdoor cocktail area and combine reception/cocktail setup to save you money.

Reception

DJ Setup

All sound – number of speakers is determined by guest count

Wireless handheld microphone

Coordination with your wedding planner or day-of coordinator to focus on timeline.
